## EDUCATION

**UC Berkeley Extension**                                      **2020-2021**
**Full Stack Web Development Certification**                   **Berkeley, CA**

**City College of San Francisco**                             **2017-2020**
**STEM course work**                                          **San Francisco, CA**

I have completed 2 years of general courses with a focus on Mathematics and Computer Science. 3.6 GPA, currently transferring to the University of Minnesota to finish my Bachelors of Science in Mathematics and Computer Science.

## EXPERIENCE

**Baker**                                                     **2020-Present**
**Kowalski's Market**                                         **Eagan, MN**

Worked on a team of bakers to prepare a large variety of artisan bakery goods, both sweet and savory.
Key Accomplishments:
- Prioritized sales floor and production tasks on a regular basis to create a pleasant customer experience
- Collaborated with other bakers to maximize our productivity

**City College of San Francisco**                            **2018-2019**
**Mathematics Tutor**                                         **San Francisco, CA**

Developed a successful plan for students to cope with test anxiety.  Taught students to create learning plans, study tools and to improve test scores.
Key Accomplishments:
- Discovered how to be adaptable to a person's specific needs to solve problems in a one-on-one basis
- Found original solutions for students with multiple learning styles

**Rosamundes Bar & Grill**                                   **2017-2020**
**Bartender**                                                 **San Francisco, CA**

Worked as a server and bartender at a busy artisan food and craft beer restaurant
Key Accomplishments:
- Helped to satisfy hundreds of guests a day
- Created social media posts to promote special events

**Loved to Death/LTD**                                        **2016-2017**
**Clerk/Website Maintenance & Social Media**                  **San Francisco, CA**

Administered the store's website and inventory management system by directing website traffic, targeting business leads and driving the social media presence.  Handled online order fulfillment. Assisted customers from all areas of the world in an art, antique and jewelry store on Haight Street.
Key Accomplishments:
- Developed a knack for helping customers have an excellent experience
- Posted promotionals to store's social media
- Self-starter - took initiative and whatever you did
